***Peep Inside our Stories ...
... and Bring Out a New One!***

Dear Teachers,

Uniscan Grup Educational and Express Publishing challenge you to take part in the national contest ***“Peep inside our Stories and Bring out a New One!”*** we are launching this spring. We invite you to join our effort to spark pupils' interest, heighten their curiosity, and ignite the imaginations of today's learners!

Purpose

On the one hand, the contest aims to encourage reading comprehension, improve vocabulary, create higher-level thinking opportunities for students, and send young curious minds on a journey of exploration.

On the other hand, it aims to develop children's English skills in the age of digital culture, offering them the opportunity to improve their language abilities through videos, documentaries, and digibook applications (the digital version of the readers).

The Contest Period

1st of April – 1st of June 2024.

Suggested Readers

Primary students can go for the new **Short Tales** series and for the already well-known series: **Storytime** (graded in 3 key stages) that will enhance receptive skills through reading and listening and also gradually develop productive skills through accompanying activities.
