**Teach it,
your way**

SIMONA POPA

General manager,
Uniscan/Educational
psychologist & teacher
trainer ALTC

Dear teachers,

We hope you have travelled and enjoyed wonderful places this summer and have come back full of positive energy to boost your potential and maximise your capacity to deal with the challenges of the new school year which is already here.

We, here at Uniscan, have also got precious energy along the beautiful summer we want to share with you by expanding the domains we offer you support and expertise. Of course this speaks about reshaping our image, our form and content and we do hope it took the right form corresponding to your needs we have grasped while running some of the projects together.

The impulse to change was given by Express Publishing as they have transformed their logo into a more modern one which we hope you'll love. The change of the logo is a sign of growing, of transformation, of becoming more mature. It is important for us that you recognize our new logo, our new look at Express Publishing, the way it is important we differentiate between the face of an adult from the face of the child or the adolescent who he was. We have added new titles you'll find information within the newsletter, titles that take contours in the form of printed books, but also of DigiBooks, combining the traditional use of books with digital tools and platforms (DigiPlus), creating the so called Digiverse in which AI is kept safe, positive, contributing to reshaping our learner's individual background, progress, pace and cognitive style.

Besides the high-quality ELT materials and approved textbooks, we continue to offer we bring to your attention the newly approved NOCN-ESOL Exams which are an alternative to Cambridge Exams you are already used to. The NOCN-ESOL Exams have been approved by the Ministry of Education to certify the linguistic competences for the English language and they equvalate the bacculaureate exam or the exams taken to pass an intensive or a bilingual English class. The good news about these exams is that they are very students friendly, financial friendly also, as in case a student fails a paper, they only retake that specific paper and they also pay only for it while the other papers remain valid. Our Certificates are regulated by the Office of Qualifications and Examinations Regulation (Ofqual), Qualifications Wales (QW) and the Council for the Curriculum, Examinations and Assessment (CCEA), and comply with the Common European Framework of Reference

(CEFR), gaining international recognition. We are looking forward to meeting your students and accompanying them in achieving their goals. We invite you to become ALTC (Active Learning Training Centre) partner and gain all the benefits our centre brings within this partnership.

The ALTC centre takes me to the benefits brought in these partnerships which go beyond examinations. We also offer our partners psychological testing to identify student's learning styles so as to overcome learning difficulties of some of the children. We train the psychological counsellors in your school to become experts in applying such tests and counselling your students. There are also other tests that could be of interest for parents and their children related to choosing careers, self-esteem a.s.o.

We offer continuous professional trainings for teachers and psychological counsellors, preparing them to run psycho-educational programs for students, parents or teachers helping maintain a more harmonious atmosphere in schools. We also offer an approved course by the Ministry of Labour to train teachers or counsellor to become self-development accredited counsellors.

We also offer self-development psycho-educational programs for students, parents and teachers (LifeQ). As teachers it is important to learn how to set limits to students and parents, to identify and understand our fears in front of the aggressive ones so as to be capable to find our firmness and to remain in power while adequately managing the relationship with students and their parents.

Last, but not least, we support teachers of FLE with Trait d'Union materials, managing to enter, step by step on the ministry list of approved textbooks. We'd appreciate if you let them know. Thank you.

Thus, Uniscan and Active Learning Training Centre is ELT, FLE, NOCN-ESOL Exams, Ariston Psychological testing for students to overcome learning difficulties, Teacher training and psycho-educational programs for students, parents and teachers.

So welcome back to school dear teachers, may we have successful partnerships, have a great school year, keep healthy, do not allow yourselves to be overworked, balance the time for students and the time you need for yourselves, bring harmony and as much wellbeing as you need. Because you deserve to feel good.

Kind regards,
Simona Popa

We are excited to announce that starting this year, Active Learning Training Centre, part of Uniscan Grup Educational has become the NOCN ESOL Exams representative in Romania!

NOCN is the leading Awarding Organisation in the United Kingdom, based on official ranking, with international recognition and presence.

The **NOCN** qualifications in **ESOL International** offer a comprehensive test of English skills in Listening, Reading, Writing and Speaking and are an alternative to Cambridge Exams. They have been recently approved in Romania by the Ministry of Education to equvalate the Language Competences Examination in the National Baccalaureate Exam, bilingual and intensive classes admission, both lower and upper secondary segments. They are also passport recognition to International Universities.

They follow the same syllabus as the Cambridge exams, thus, in order to prepare your students, you can use both Cambridge Exams preparation books or the newly NOCN books published by Express Publishing.

NOCN Exams are very much student friendly contributing to creating self-confident candidates:

- learners that have passed 3 skills and have been awarded a Near Pass grade on one skill (up to 3 marks below the passing mark) are considered successful and have passed the exam.
- learners succeeding in 1, 2 or 3 Papers are able to retain them for 3 years, so if a student misses a paper, he can retake only that paper without having to pay for the whole examination again, and without having to go through the stress of retaking the whole exam all over again!

Boost Your Students' Success – and Get Rewarded!

Are you preparing students for English exams?

Partner with us for NOCN ESOL exams and for every group of students you register with us, you will receive a Didactic Materials Package to prepare your students:

- ✓ 50 students ➡ teaching pack worth 300 RON
- ✓ 100 students ➡ teaching pack worth 600 RON
- ✓ 150 students ➡ teaching pack worth 900 RON
- ✓ 200 students ➡ teaching pack worth 1200 RON

The Ministry of Education has approved and included these exams in the official list of internationally recognized examinations, which can be equated with the assessment of linguistic competences within the national examinations (admission in the 5th grade for the intensive classes, admission in the 9th grade for the bilingual classes, baccalaureate).

The list can be accessed via the following link:

https://www.activelearningcenter.ro/downloads/ministry_education_nocn_exams.pdf

*If you are interested in becoming one of our collaborators, either by organizing these exams within the educational institution where you work, as a venue administrator, or by taking on the role of an examiner for the **NOCN** exams, please feel free to contact us using the details below:*

CAREER PATHS

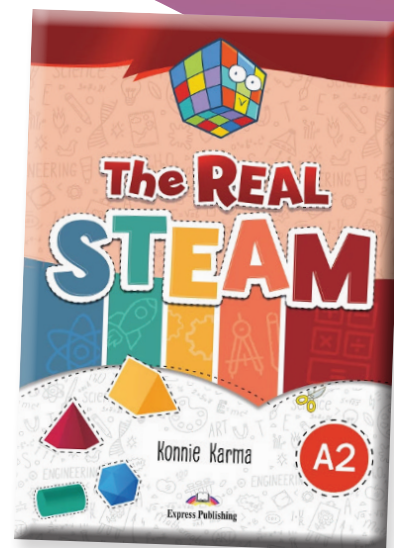

»» English for Specific Purposes (A2-B1)

These books are designed for professionals and students in vocational schools and colleges to help them develop the language skills they need to succeed in a professional work situation.

»» The Real STEAM New Level A2

The **REAL STEAM** is a five-level series for students at CEFR levels Pre-A1 to B2 (now available Pre-A1/A1/A2) that promotes experiential and holistic language learning through STEAM activities. Students carry out a variety of scientific experiments, engineering projects, mathematical calculations and art projects, all carefully tailored to their language level. The series provides hands-on activities for students to explore the STEAM world through six collaborative steps: iWonder (asking questions), imagine (preparing for the activity), iExplore (doing the activity), iObserve (making observations), iCreate (presenting results) and iEvaluate (analysing results).

»» Reading and Writing Skills

Reading and Writing Skills 1-3 (now available 1 and 2) is a three-book series that combines the very best in modern classroom practice with tried-and-tested language teaching techniques. These stimulating, topic-based books cover a wide range of familiar topics for learners at CEFR Levels A1-B1 and provide extensive practice in common reading and writing activities at these levels. Each book comprises 10 units in two sections: Reading, to develop reading skills, and Writing, to develop writing skills. Language work and vocabulary development is fully integrated in each unit.

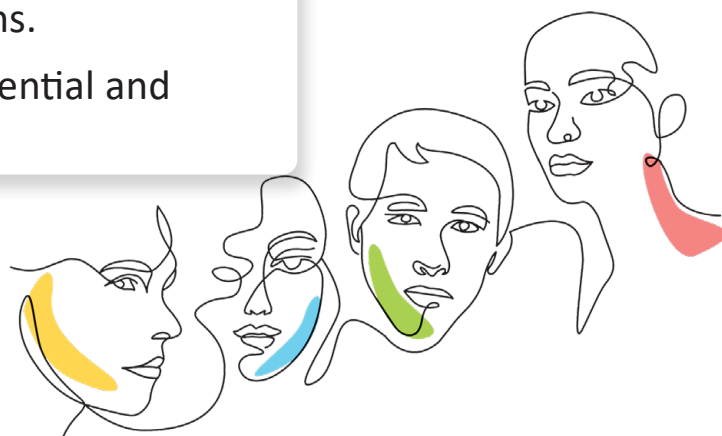

»» 4 Minds - New levels B2/ B2+/ C1/C2

4Minds is a new multi-level course, designed for teens and young adults of CEFR levels A1–C1/C2. Now all series available! It covers the latest developments and trends in technology, entertainment and social issues while preparing learners for the real world, outside class.

- ✓ Themed units, the central pillar of which is creativity, collaboration, research and mediation.
- ✓ Study Skills and Writing Tips that aid and guide autonomous learning.
- ✓ Theme- related, Grammar and Writing Videos to provide a multimodal learning experience.
- ✓ Life Skills & Presentation skills sections.
- ✓ STEAM activities to encourage experiential and holistic learning (Workbook).

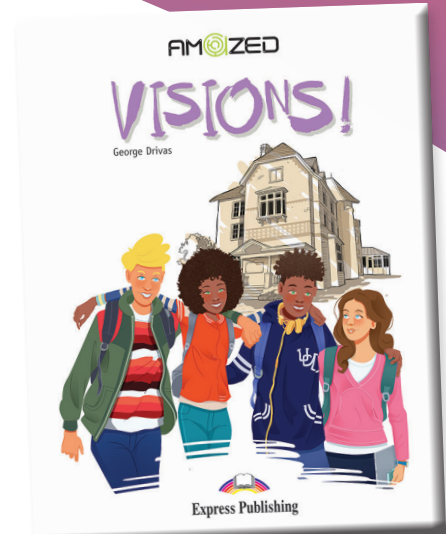

AMAZED is a series of original stories featuring four teenagers, Jonathan, Elisa, Paul and Sheena, as they progress through school and university. What sets these stories apart is the reader's ability to choose what happens next, moving forwards and backwards in the series of events. Each title consists of 3 books divided into chapters. Each chapter also includes factual information relevant to the story and exercises.

NEW READER SERIES AMAZED

Unlock interactive, engaging storytelling!

- ✓ Visions (A1/A2)
- ✓ Missing (A2/B1)
- ✓ Innocent! (B1/B2)

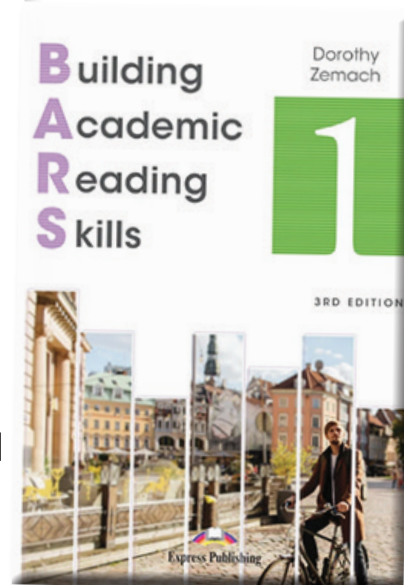

» Building Academic Reading Skills

Reading academic English 1/ 2 (now available 1) requires more than a large vocabulary and advanced grammatical structures. Building Academic Reading Skills gives college and university students the specific reading skills and practice they need to handle academic and non-fiction reading.

Each level is organised by high-interest topics and features multiple readings from different academic fields. Pre-reading, during-reading, and post-reading exercises not only help students understand the text they are working on but become better readers overall. Each unit contains one textbook excerpt and one reading from another genre, because students are increasingly reading newspaper, magazine, journal, and online articles as well as textbooks.

The readings, adapted for intermediate to low-advanced students, are not easy. However, through the systematic application of the reading skills, students will be able to understand them and apply the information they learn. Students thus gain the satisfaction of having mastered challenging text.

Stay tuned!

**HappyToons - New series
for primary level coming soon!**

LEARNING ADAPTED TO YOUR NEEDS

Harnessing the power of Artificial Intelligence, **DigiPlus** creates tailor-made lessons as unique as each learner's needs and goals.

Express
DigiPlus

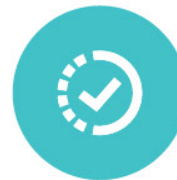

How can **DigiPlus** help my students?

As soon as a student completes their first task, DigiPlus begins to build their profile, pinpointing their strengths and areas to work on.

Right after, DigiPlus provides feedback and creates a follow-up task that targets a selected area the student needs to work on.

As the student moves forward, DigiPlus creates new tasks based on their needs. The student's profile is updated to reflect their progress.

To find out more, access the link: **DigiPlus:**
Our Adaptive Learning Tool | **Express Publishing** or contact us.

What is DigiPlus?

DigiPlus is an adaptive learning tool that uses data to identify the areas your students need to work on and provides them with differentiated tasks and instruction to help them consolidate grammar structures, theme vocabulary and specific skills in the most structured way.

DigiPlus adopts an adaptive learning approach that is responsive to your students' progress and goals.

What DigiPlus offers:

- a dynamic learning experience, enhanced by gamification elements
- personalised lessons and feedback that target your students' learning needs
- an inclusive approach that accelerates learning and brings mixed-ability classes on the same page
- a chance to use in-class time more effectively

What DigiPlus offers:

- ✦ want to help mixed-ability classes through hyper-personalised, targeted tasks and feedback
- ✦ want to foster motivation through tasks that present manageable challenges
- ✦ are looking to improve performance at speed
- ✦ are looking to encourage autonomous learning through an adaptive learning system that spots learners' strengths and areas to work on
